WHY CHOOSE BSC?

1. Experience
2. Products
3. Service

At the end of the day, what counts most on important coating application projects is **Experience**. All BSC Coatings teams have many years of local and international experience performing on tough shutdowns, in extreme conditions, and where getting it right is absolutely critical.

BSC apply Nukote polyurea products, proven to work in Australian mining conditions over the last 12 years. Products are available to suit nearly every application.

BSC understand how to provide coating service when where and how they are needed. Our commitment to you is that we will do absolutely everything we can to deliver your project

On Spec – On Time – On Budget
